## 1. Preamble

The North East Local Enterprise Partnership (North East LEP) supported by its Accountable Body, the North East Combined Authority (NECA), coordinates and manages significant public resources provided from Central Government and generated through local investment activities. These resources are channelled through investment programmes that support the delivery of the North East Strategic Economic Plan (SEP), helping to create the right conditions to attract private sector investment and to facilitate economic growth and job creation.

HM Government requires Local Enterprise Partnerships (LEPs) to prepare a 'local assurance framework' that explains how their funding will be spent with regularity, propriety and deliver value for money. This Assurance Framework has been updated to reflect the latest requirements set out in the 'National Local Growth Assurance Framework' published in January 2019. All North East LEP funding decisions are held to account locally through the NECA which operates under the Local Government Financial Framework, as set out in the Ministry of Housing, Communities and Local Government's (MHCLG's) Local Government System Statement.

Amendments to this Assurance Framework were highlighted to the North East LEP Board meeting on 31<sup>st</sup> January 2019 as necessary to remain fully compliant in the context of the 'Strengthened Local Enterprise Partnerships' report that followed the Ministerial review into LEPs (July 2018) and subsequently updated 'National Local Growth Assurance Framework'. This local assurance framework provides an overview of the North East LEPs governance arrangements and contains links to more detailed strategic and operational policies that are either located on the North East LEP website or that of the NECA. The LEP website has been updated in February 2020 with a new joint statement by the LEP Board Chair and Executive Director regarding their commitment to good governance and transparency, this can be viewed [HERE](#).

# 1. Introduction

## 1.1 Purpose and scope of the Assurance Framework

This Assurance Framework sets out the operational management structures and decision-making accountabilities that are necessary for the effective control and delivery of all funding received by the North East LEP from Central Government and other sources. It sets out how we engage stakeholders, make transparent and fair decisions, secure value for money and communicate project funding decisions taken by the North East LEP Board and how we subsequently monitor and evaluate the impact of our investment decisions.

The North East LEP has a planned revenue budget of £3.223m in 2019/20. The majority of the LEPs resources are capital with an estimated Local Growth Fund budget expenditure of £42m in 2019/120, and potentially up to a further £10m in loans from the North East Investment Fund. In addition, £40.3m is forecast to be invested in Round 1 and 2 Enterprise Zone infrastructure subject to LEP Board approvals that allow delivery partners to borrow and to be repaid by future business rates income to the North East LEP. Most of our budget, over 95%, is distributed through loans, grants and contracts for services to other public and private sector organisations who deliver activities in support of the North East Strategic Economic Plan (SEP).

Most funds are managed through programmes and distributed in the form of both project grant and loans with amounts varying from £200,000 to exceptionally over £40m. We have set out in this assurance framework the operational management arrangements for each funding programme that the North East LEP is currently directly responsible for managing and highlight the relationship and support that we receive from our Accountable Body, the North East Combined Authority.

Funding programmes currently directly managed are:

- Strategic Growth and Infrastructure Fund (funded by Growth Deal Local Growth Funding)
- North East Investment Fund (funded by Growing Places Funds and Regional Growth Funds)
- Enterprise Zone infrastructure investments (mainly funded by borrowing against future business rates income projections)

We have an important role, working with local authority partners, in preparing project calls for European funding, in line with local priorities and in providing guidance to prospective applicants. We work closely with national Government departments who actually make the funding decisions and control the budgets i.e. MHCLG for European Regional Development Fund (ERDF), DWP for European Social Fund (ESF) and DEFRA for the European Agricultural Fund for Rural Development (EAFRD).

We are also currently supporting the delivery of a 'Schools and College Innovation and Activity Fund' - funded through the Gatsby Foundation for National Pilot Schools and Colleges. In 2018 we

plan to build on this pilot project by bidding for a range of funding, via our accountable body, to deliver a wider 'North East Ambition Education Challenge' programme.

## **1.2 Financial Accounts and latest Budget**

Annual accounts and budgets for the North East LEP are audited and reported to the NECA. The latest accounts can be viewed [HERE](#). Our core revenue budget for 2019/20 is £3.233m. Item 7 on the LEP Board agenda 31<sup>st</sup> January 2019 details financial plans for 2019/20 and can be viewed [HERE](#). Tables showing all externally contracted project funding awards since the establishment of the North East LEP are published on our website and can be viewed [HERE](#).

Progress on Government funded schemes is reported to the North East LEP Board and Investment Board on a regular basis and as required, performance monitoring information is also submitted to Government on a quarterly basis.

## **1.3 About the North East Local Enterprise Partnership**

Established in 2011, we are one of 38 LEPs in England approved by the Government to play a central role in determining local economic priorities and to undertake activities to drive economic growth and support the creation of local jobs. We are a local business led partnership that brings together 7 local authorities, businesses and further and higher education sectors. The North East LEP area covers the local authority areas of Newcastle upon Tyne, North Tyneside, South Tyneside, Gateshead, Sunderland, Northumberland and Durham. The North East LEP operates with a Board and a constitution but it is not a legal entity. Therefore, we rely on the NECA to perform an Accountable Body function on our behalf including the administration of budgets. This relationship is set out in a 'Host Authority and Accountable Body Agreement' that can be viewed [HERE](#).

## **1.4 About the North East Combined Authority (NECA)**

The NECA was formed under the Local Democracy, Economic Development and Construction Act 2009, which has been substantially amended by the Cities and Local Government Devolution Act 2016 that can be viewed [HERE](#). Established in April 2014 the NECA originally brought together the seven local authorities which serve County Durham, Gateshead, Newcastle, North Tyneside, Northumberland, South Tyneside and Sunderland. By the Newcastle upon Tyne, North Tyneside and Northumberland Combined Authority (Establishment and Functions) Order 2018 the boundaries of NECA were changed on the 2 November 2018 to cover County Durham, Gateshead, South Tyneside and Sunderland. The North East LEP Chair attends the Leadership Board of NECA as a non-voting observer.

Further information on our Host Authority can be found [HERE](#).

## **1.5 Collaboration with the North of Tyne Combined Authority**

The North of Tyne Mayoral Authority (NTCA) was formed in November 2018 and covers Northumberland, North Tyneside and Newcastle. It plans to appoint an elected Mayor in May 2019 and will receive £20m p.a. from Government over 30 years through its first Devolution Deal. This Deal will help support the delivery of the North East Local Enterprise Partnership's Strategic Economic Plan and the emerging Local Industrial Strategy for the North East. The North East LEP and NTCA are committed to work collaboratively and share economic intelligence and to co-

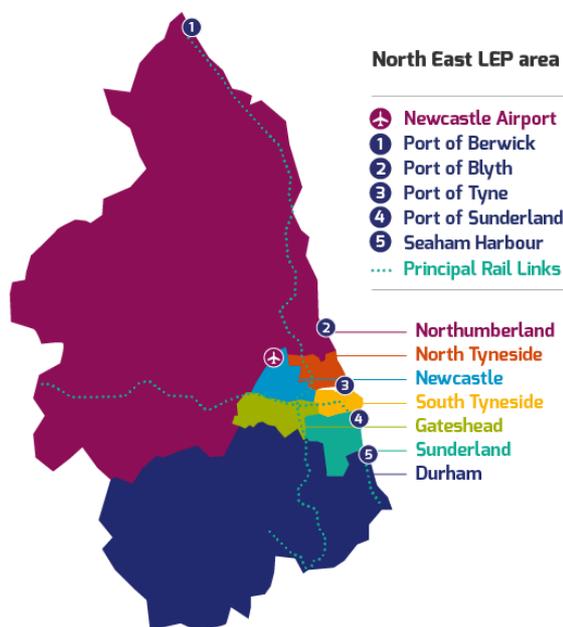

ordinate and monitor investment programmes to help ensure the effective use of public resources. The North East LEP Chair attends the Leadership Board of NTCA as a non-voting observer and officers from the North East LEP are represented on the Technical Officer Group and Investment Panel.

## 2. Strategic Context

The North East LEP operates over a diverse economic geography, characterised by remote and sparsely populated uplands including the Northumberland National Park and North Pennines Area of Outstanding Natural Beauty and a bustling urban heart centred around the Tyne and Wear conurbation, flanked to the south by the historic Durham City and also ‘new towns’ and market towns.

The North East has a population of almost 2 million and in 2017 the local economy contributed £40.1 billion or 2.6% towards England’s total GVA. Since the 2008 recession the North East has experienced sustained recovery and employment in the North east LEP area reached its highest ever level of 909,900 in the 12-month period Apr 2017 to Mar 2018. Our investment plans will build on this improved context and continue to overcome market failures and to support the realisation of new economic opportunities across all parts of the North East.

**Figure 1: North East LEP area**

### 2.1 North East Strategic Economic Plan (SEP)

All North East LEP funding programmes are designed to support our ambitions set out in the North East 10 year ‘Strategic Economic Plan: More and Better Jobs’, which initially drew on the evidence in the North East Independent Economic Review led by Lord Adonis in 2013. The cornerstone of the SEP is the ambition to create over 100,000 new private sector jobs creating a better balanced

and sustainable economy with 70% of new jobs being 'better jobs'. Following stakeholder workshops and consultations during 2018 an updated SEP was published in January 2019. You can read the latest SEP update [HERE](#).

We are committed to both directing and influencing local, national and European resources, towards the four areas of strategic significance in the North East Strategic Economic Plan:

- Digital
- Advanced manufacturing
- Health and life sciences
- Energy

To measure progress four high level performance indicators are being tracked over time, relative to the national economy, these are;

- Reduction in the gap in productivity.
- Reduction in the Employment rate gap.
- Reduction in the gap in private sector employment density.
- Reduction in the gap in economic activity rate.

On 14<sup>th</sup> February 2019 we formally launched an updated SEP that set out progress against strategic targets against these indicators by 2024/25 and a programme of action over the period 2019-21. A series of documents and events during 2019/20 will further profile progress against plans including a 2018/19 Annual Review, a Delivery Plan for 2019/20 and the second 'Our Economy' annual performance briefing event during May 2019. Our on-going investment decisions will be informed by the latest available market evidence and policy context including the outcome of Brexit negotiations. The SEP objectives are being delivered through 5 operational themes – Investment and infrastructure, Transport & Connectivity, Business Growth, Innovation and Skills, Employability, Inclusion and progression. In association with these themes we have several Sub-Boards to challenge, develop initiatives and monitor progress. The roles, membership and responsibilities of these Boards can be viewed [HERE](#).

## **2.2 European Structural and Investment Fund Strategy**

European Structural and Investment Funds are managed nationally by Central Government Departments. The current European Programmes cover the period 2014-2020 and from the national budget the North East has an allocation of £437m. The North East LEP has a responsibility to produce locally, with our partners, a European Structural and Investment Fund Strategy (ESIFS) which can be viewed [HERE](#). The North East ESIFS sets out local priorities, consistent with the North East SEP and provides strategic direction to calls for projects and funding allocations under three European programmes. These are the European Regional Development Fund (ERDF), European Social Fund (ESF) and European Agricultural Fund for Rural Development. The North

East ESIFs will continue to inform investment decisions on all three programmes until the UK exits the European Union.

### **2.3 Strategic Transport Plan for the North East**

The Transport Manifesto for the North East (published in December 2016) sets out a 20 year vision that will guide the first Strategic Transport Plan for the North East. This will identify an ambitious programme of well-designed transport projects which:

- deliver economic growth in a way that promotes sustainable economic growth, travel choice and improved health
- have clear objectives and demonstrable value for money

Responsibility for the development of the Strategic Transport Plan rests with the Regional Transport Team based within NECA. This plan will help inform future LEP funding decisions.

### **2.4 Working with other LEPs and Government beyond the North East**

On occasions the North East LEP will collaborate with other LEPs and Government to develop and take forward specific projects, sectors and initiatives in support of wider strategic policies and plans. This approach makes sense where there are common interests, mutual benefits, economic advantages and efficiencies. One such arrangement is the Northern Powerhouse network that the North East LEP has signed up to help raise the profile, attract investment and realise the economic potential of the North. We were asked by Government in 2018 to become a lead Career Hub, to share knowledge and expertise to support new Hubs elsewhere in England. The principles and standards set out in this assurance framework will be applied, as appropriate, when we enter into collaborative working arrangements with other areas beyond the North East.

### 3. Overview of North East LEP Funding Programmes

#### 3.1 Summary of Current and planned funding schemes

The following table summarises the main funding schemes either directly managed by the North East LEP or where we have some influence over the allocation of funds that are managed by other bodies. This list will be updated annually.

Funding	North East LEP Role	Brief Description
<b>Local Growth Fund</b> <b>a) Strategic Growth and Infrastructure Fund (SGIF)</b>	Direct project funder	Project capital grant funding scheme using local growth fund resources to support major investments in innovation, transport, skills and economic infrastructure
<b>Local Growth Fund</b> <b>b) North East Growth Hub</b>	Direct project funder	The North East Growth Hub is part of a national growth hub network providing local business with easy access to a range of local business support services. We use revenue funding to procure services to support the Growth Hub digital platform and to deliver associated business support services.
<b>North East Investment Fund (NEIF)</b>	Direct project funder	Loan funding supporting private sector commercial property or business development projects.
	Provision of funds into an external fund scheme manager	<b>North East Property Fund</b> – pilot launched in June 2017 in partnership with Santander and FW Capital. Focussed on smaller scale, mainly residential market projects.
	Provision of funds into an external fund scheme manager	<b>JEREMIE Fund Extension</b> - comprises a suite of seven investment funds, providing debt and equity finance to SMEs based in the North East of England.
<b>European Structural Investment Funds (ESIF)</b>	Promotion and local strategic guidance to scheme management authorities.	Design and local promotion of project calls and assessment of strategic fit of projects in relation to the North East SEP priorities. Work closely with national funding awarding bodies DCLG (ERDF), DWP (ESF) and DEFRA (EAFRD)

<b>North East Fund</b>	Facilitator, enabling scheme development.	Establishment of an operational management company to oversee the appointment and subsequent performance management of five sub fund managers.
------------------------	---	--

### 3.2 Strategic Growth and Infrastructure Fund (SGIF)

The SGIF is the name of our registered EU state aid scheme under which we deliver funding from our local growth fund budget allocations. We manage a combined total of £270m of new capital funding received from Central Government from Local Growth Fund Rounds 1, 2 and 3. This resource is now largely allocated and is assisting over 50 infrastructure projects / mini programmes that support the delivery of the Strategic Economic Plan. A dedicated Growth Deal: Local Growth Fund page is maintained on our website and can be viewed [HERE](#). This page is used to help organisations access ‘calls for projects’, publish summary listings of project grant awards and makes links to individual project pages where details and progress on each project is made available.

The SGIF brings forward and supports projects through a combination of approaches. The three approaches are:

- ‘Closed calls’ - time limited calls for project expressions of interest - open to private, public and voluntary sectors.
- Restricted calls - normally restricted to local authorities and other public bodies involved with public transport and other non- commercial strategic public infrastructure provision.
- Commissioning - either through a grant award or procurement process - open to private, public and voluntary sectors – used in circumstances where the North East LEP may have a requirement for proposals to come forward to meet a specific need or economic opportunity.

A combination of the above approaches will be used over the lifespan of the LGF Programme 2015-2021. In 2016 for instance we held one closed project call that resulted in over 50 project expressions of interest and 12 projects being shortlisted. We also conducted a restricted call, at short notice, with local authority partners to inform a package bid under LGF Round 3 in October that replaced an earlier programme bid in July to Government that was no longer able to proceed due to plans for a North East Devolution Deal not proceeding.

### 3.3 North East Growth Hub

Over the financial year 2019/20 we will commit £410,000 in core revenue funding to maintain and further develop the North East Business Growth hub digital platform and associated business support services. This budget is overseen by the LEP Business Growth Director and performance monitoring reports are taken to the North East LEPs Business Growth Advisory Board. All services procured are advertised in accordance with the Accountable Body procurement policies with successful tenderers selected by the North East LEP Board and awarded by the Accountable Body.

### 3.4 North East Investment Fund (NEIF)

NEIF operates as a loan fund and comprises of resources originally provided under the Government Growing Places Fund and Regional Growth Fund, with an initial budget totalling £55m. Private, public and voluntary sector organisations can apply. The fund objectives, application forms and selection criteria can be found [HERE](#) . During 2019 a strategic review of the NEIF will result in recommendations being made to the LEP Board in relation to future investment focus of NEIF budgets.

Currently the Fund remains accessible on an ‘open call basis’. This means that applications are welcomed from eligible projects at any time. Applications are not considered competitively against other projects but on their merits against the NEIFs selection criteria. Applications are appraised prior to being taken to the North East LEP Investment Panel. The Investment Panel’s recommendations are then reported to a North East LEP Board meeting for determination. We provide case studies of previously funded projects and a list of organisations receiving loans can be viewed on our website [HERE](#). The **North East Property Fund** is managed under contract from the North East LEP by FW Capital. The objective of this 5 year pilot fund is to unlock smaller scale housing and commercial development schemes that typically find it difficult to secure bank loans. The £10m fund includes £5.7m from the NEIF. Performance updates are reported to the Investment Board.

In 2016 the North East LEP Board agreed to provide £4.5m from NEIF to enable the extension of the **North East JEREMIE Fund** into 2016. The JEREMIE Fund comprises a suite of seven investment funds, providing debt and equity finance to SMEs based in the North East of England. Managed by North East Access to Finance Ltd the scheme extension has bridged a gap over the period 31<sup>st</sup> January 2016 to 31<sup>st</sup> December 2016 with repayments to the NEIF expected within 5 years. The North East LEP has observer status on the Board and receives detailed quarterly reporting documentation covering:

- Progress towards investing funds
- Statement of ring fenced bank accounts
- List of investments made
- Returns generated
- Status of Legacy account
- Defaults and bad debts
- Outputs generated

### 3.5 Enterprise Zones (EZs)

The North East LEP has been successful in securing from Government Enterprise Zones through two bidding rounds.

In the first wave of EZs 115 hectares of land were designated on ten sites clustered in 3 localities with a strong focus on attracting investment from offshore, renewables and low carbon

automotive sectors. Many of these sites are brownfield with abnormal development costs requiring significant advance investment in remediation, on and offsite highway and utility infrastructure with an estimated investment requirement of £65m. The localities are:

- Three sites adjacent to the A19 at Sunderland
- Three sites on the North Bank of the Tyne
- Four sites near the Port of Blyth

In November 2015, a second wave of EZ's were announced for the North East covering an additional 175 hectares across a further ten sites, in both urban and rural areas.

The second wave of EZ sites were launched in April 2017. The current total infrastructure budget estimate requirement for 2019/20 is £40.3m. Further information on all EZ sites can be viewed [HERE](#)

Under EZ regulations the North East LEP is entitled to retain all income from additional business rates generated over a period of 25 years. To improve the competitiveness and to accelerate the pace of development and receipt of EZ rates income, NECA and the North East LEP are supporting advanced enabling infrastructure works, funded in the short-term by borrowing and repaid by future business rates income. To ensure this approach is financially sustainable, investment using the Enterprise Zone mechanism is based on a robust, externally-verified model. Each site was selected in line with SEP priorities and subject to an external, independent evaluation of the cost and income assumptions. This ensures that each site proposal met market need and represented a financially sustainable investment.

A Business Growth and Investment Strategy is used to guide Round 1 EZ investment plans. For Round 2 sites, following initial application, each site has developed a high-level investment plan. A final revised proposition will be taken through a further external validation and verification before investment decisions are taken. This provides a sound understanding and investment envelope for each site to inform subsequent investment recommendations to the North East LEP Board by the Investment Panel. The overall financial model will be updated on an annual basis in line with actual performance to consider if any modifications are required or impacts on investment decisions.

An overarching Implementation Plan has been developed prior to the launch of the Round 2 sites setting out key activities, milestones and risks and performance management arrangements. The Implementation Plan will be submitted to Government following endorsement by the Investment Panel. This is supported by the national Memorandum of Understanding on delivery of Enterprise Zone sites and underpinned by a local agreement between the seven local authorities, the North East LEP and North East Combined Authority setting out the practical issues of delivery and providing long-term certainty over delivery. This includes approaches to borrowing which seek to minimise the costs of borrowing using low cost options through the local authorities and North East Combined Authority.

Individual applications for Enterprise Zone investment are assessed through a standardised approach as described under the NEIF; using corporate business case forms and guidance on an

open basis. In addition to the internal strategic assessment to confirm that the application contributes to the delivery of the Enterprise Zone site and fit with the strategic ambition for the location, the process includes a further external assessment through due diligence processes to consider financial and legal elements and ensure value for money.

This evaluation including expert, external support informs the recommendations made by the Investment Panel to the North East LEP Board for approval and confirmation by the Accountable Body.

It is intended that EZ loans are repaid back to the NEIF as soon as practically possible so that this resource can be recycled through the NEIF for other loans.

### **3.6 The North East Fund**

The is a £120m business support fund that the North East LEP has helped establish in conjunction with local partners in December 2017. The fund comprises of legacy money generated from historical business funds which have operated in the North East LEP area since 2003 together with European Regional Development Fund and European Investment Bank (EIB) finance. North East (SPV) Ltd, a wholly owned subsidiary of the 7 constituent authorities of the North East LEP, has been established as a new holding fund management company and will commence in April 2017. The North East (SPV) Ltd has procured the appointment of five fund managers.

Around £120m budget is allocated between five individual FCA authorised fund managers. The new Fund will build on the successful North East 'JEREMIE' programme that has invested almost £160m over the past seven years. The North East Fund will manage a suite of venture capital and loan funds to support small and medium sized enterprises in the North East LEP area in the 2017-2023 period.

Having been instrumental in setting up the North East Fund, the North East LEP Board will receive performance monitoring reports and will help promote business access through the North East Growth Hub.

## **4. Governance of Resources – Accountable and Transparent Decision-making**

### **4.1 North East LEP Board**

The North East LEP is a business led partnerships with an 18 strong Board that includes the Leaders and elected Mayor of the constituent local authorities, Higher Education and Further Education representatives and 9 local business leaders that are selected through an open recruitment process. In accordance with Government requirements, the North East LEP appointed Ammar Mirza CBE in 2016 as a new Board member with a brief to represent the interests of small medium sized businesses. During 2019 the Board will nominate a Diversity Champion. A biographical profile of each of our current Board members can be viewed [HERE](#).

The North East LEP Board meets bi-monthly and is chaired by a private sector Board member with two Vice Chairs (one Private sector and one local authority). The Board constitution was last

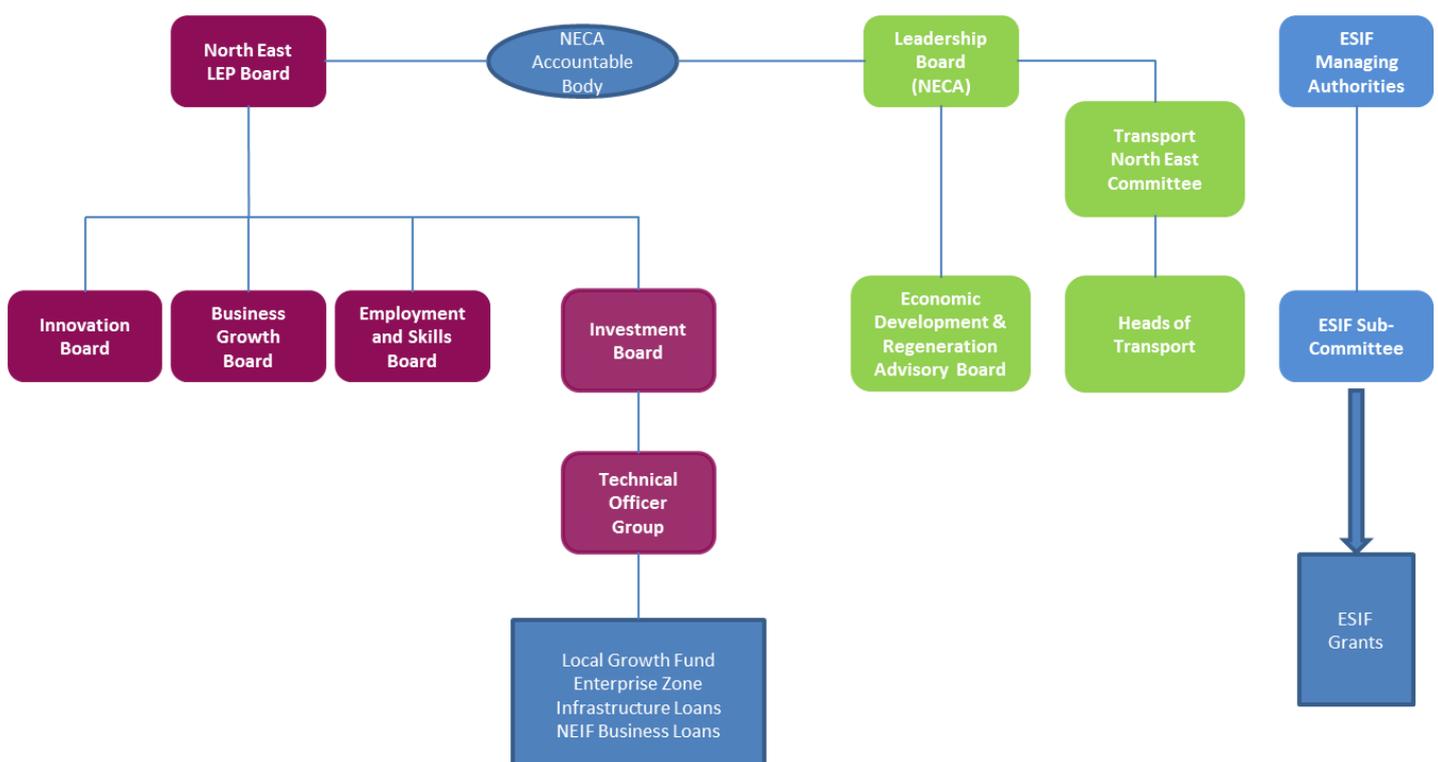

revised in May 2020 to adhere to the updated Government guidelines on gender and private sector representation and can be viewed [HERE](#). In line with the Constitution we will use a public advert and follow the Nolan Principles to fill any private sector Board vacancies, including the Board Chair. Vice-Chairs are appointed from its membership. When recruiting to the Board we will:

- Utilise the support offered by Government through their recruitment media to fill vacancies as required;
- Liaise with the business representative organisations ahead of the relevant Board meeting, (namely, the CBI, NEECC, FSB, Entrepreneurs Forum and Make It (formerly EEF)), to understand their preference for Chair and Vice Chair(s) to inform the Board’s decision.
- Assess any weaknesses in Board composition and have due regard to the need to maintain a balance of private sector representation that reflects the economic and demographic characteristics of the North East.
- Set out the range of experience, knowledge, commitment and leadership qualities required by the Board Chair and through our succession planning arrangements, provide for a 3 month handover period from the outgoing Chair.

The North East LEP Board is supported by 3 ‘Advisory Boards’ that are aligned to the priorities defined in the SEP. In addition, an Investment Board performs a supporting the North East LEP Board with a delegation to consider and determine capital investments of up to £5m. A Technical Officer Group in turn supports and provides advice and recommendations to the Investment Board / Board on project investment decisions.

Terms of reference for these and other Advisory Boards can be found on the governance page of our website [HERE](#).

**Figure 2: North East LEP Organisational Structure.**

#### **4.1.1 Investment Board**

The Investment Board was formed in winter 2017 following an operational review by the LEP Board. It replaces the former Investment Panel and has been granted delegated authority to consider and approve project funding applications of up to £5m. The terms of reference for the Investment Board and current membership can be viewed on the LEP website [HERE](#). It is chaired by a North East LEP Board member and includes non-voting specialist advisors, recruited through open advert, with extensive experience of investment in both commercial property development and business expansion schemes. The Investment Board meets on a bi-monthly basis to consider project requests for loan and grant finance. For projects requesting over £5m, it makes investment recommendations to the North East LEP Board where decisions are taken.

#### **4.1.2 Technical Officer Group (TOG)**

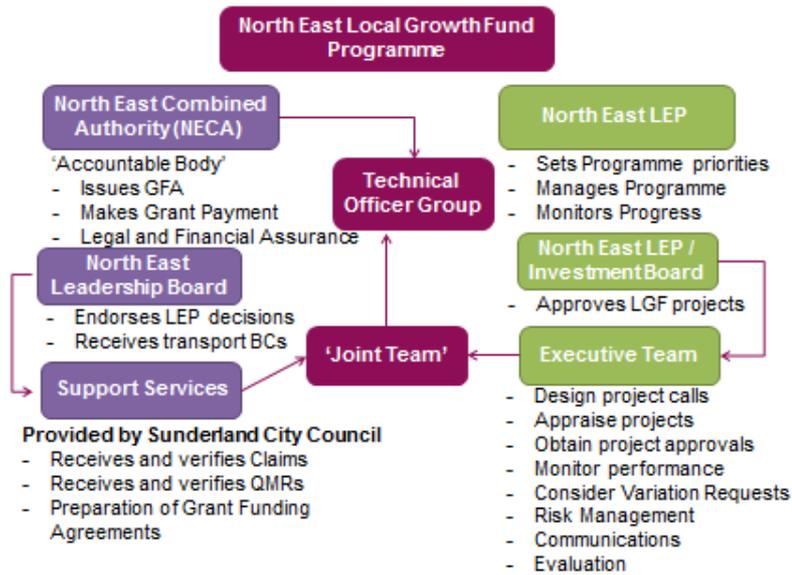

The TOG core function is to plan the delivery and monitor progress and appraise project business case proposals for NEIF, Enterprise Zone, Local Growth Fund programmes ahead of projects progressing to Investment Board/ main LEP Board for determination. The Group is chaired by the North East LEP Chief Executive and has representation from the NECA Executive Team including Monitoring Officer and Section 73 Officer. The Local Authority 'Economic Directors Group' is represented and a representative from the Department for Business Energy and Industrial Strategy (BEIS) attends as an observer. The Group is involved in establishing operational guidelines, preparing project calls, assessing project expressions of interest, making funding recommendations to the Board and monitoring progress of funded projects. Terms of reference for the TOG can be viewed [HERE](#).

Operational management relationships between the North East LEP and NECA are set out in the diagram below.

#### **4.1.3 Scheme of Delegation**

On 13<sup>th</sup> November 2018 the NECA Leadership Board adopted a scheme of officer delegations. This set out the circumstances and financial thresholds where decisions can be taken by the LEP Executive Team. It identifies the authority levels at and below Chief Officer level and provides clarity about the authority of officers and the limits of that authority. The scheme can be viewed [HERE](#).

**Figure 3: Strategic Growth and Investment Fund Organisational Management**

#### 4.1.3 The North East Growth Company Ltd

In 2018 the North East LEP via the NECA registered the 'North East Growth Company' to support the delivery of the SEP by enabling opportunities to access funding to deliver initiatives that the LEP itself by virtue of its status was ineligible to apply for. The Directors of the company include the Chief Executive of the North East LEP and the Monitoring Officer and Section 151 Officer from the NECA.

## 4.2 The North East Combined Authority (NECA)

The NECA was established by Order on 15 April 2014 as the Combined Authority for the North East covering County Durham, Tyne and Wear and Northumberland. It provides Accountable Body functions for the North East LEP in addition to its core functions and responsibilities:

- a) exercising statutory functions relating to transport in the Combined Area
- b) ensuring the effectiveness and efficiency of transport in the Combined Area
- c) in exercising statutory functions and general powers relating to economic development and growth in the Combined Area; and
- d) improving economic conditions in the Combined Area.

All decisions made by the NECA Leadership Board, including delegated decisions, taken as the North East LEP's Accountable Body, are published in accordance with the requirements of the Local Government Act 1972 and the Openness of Local Government Bodies Regulations 2014. The committee arrangements for NECA can be found [HERE](#).

### 4.3 Scrutiny and independent Audit

The NECA Overview and Scrutiny Committee fulfils an independent scrutiny function. It has 14 representatives, two from each of the NECA constituent authorities and is the body that undertakes scrutiny of the NECA/North East LEP decisions and delivery programmes. The Overview and Scrutiny Committee may 'call-in' decisions including those taken in relation to those matters and funding decisions where NECA is acting as the Accountable Body.

The NECA Governance Committee fulfils the Audit Committee and Standards Committee functions for NECA. It has representatives from each of the NECA constituent authorities and an independent chair and vice chair. The Governance Committee is a key component of the NECA corporate governance arrangements and is an important source of assurance about the organisation's arrangements for managing risk, maintaining an effective control environment, reporting on financial and other performance and for the promotion and maintenance of high standards of conduct by elected and co-opted members.

The Governance Committee approves and monitors performance against NECA's Internal Audit plan. Internal Audit is required to provide an objective audit service in line with the Public Sector Internal Audit Standard and other professional auditing standards. Internal Audit reports are published. The most recent report, examining North East LEP governance controls and processes for grants and loans, can be viewed [HERE](#).

The annual accounts of the NECA are subject to external audit by appointed auditors. Since 2016/17, Mazars have been appointed to this role by Public Sector Audit Appointments. The finances of the North East LEP are audited as part of the overall audit of NECA's financial statements, which include all North East LEP income and expenditure. In 2014/15, the first year of NECA taking on the Accountable Body for NELEP, Deloitte as appointed external auditors underwent a full audit of all North East LEP income and expenditure including that relating to the period before NECA took on the Accountable Body role and raised no concerns or significant control recommendations. Consultation on NECA, including the North East LEP, planned budgets is undertaken in the 3 months prior to the new financial year.

The latest NECA accounts can be viewed [HERE](#)

### 4.4 Transparency of decisions

Reports for approval and minutes of decisions taken by the North East LEP Board and NECA Leadership Board are published on their respective websites. Where decisions are taken through delegated or urgent decision-making procedures (normally to the North East Chair / Vice Chairs and the NECA Head of Paid Service), these are appropriately reported to the next North East LEP Board or NECA Leadership Board (NELB). Board papers can be found on the following links:

North East LEP Board [HERE](#).

NECA Leadership Board [HERE](#).

If reports are deemed to be confidential at the time of the Board meeting, papers will not be publicly available, however, once funding is awarded, the recipient, project and amount of funding awarded will normally be shown on the North East LEP website.

#### **4.4.1 Freedom of Information**

Both the NECA and North East LEP publish and make available information relating to their decisions and operational policies and programmes on their respective websites and additionally welcome enquiries from member of the public for to release any further information that is in the public interest.

Where members of the public choose to seek information more formally under the Freedom of Information (FOI) Act 2009 they can do so by contacting NECA. Where appropriate, in the first instance, members of the public may be directed to the policy of the North East LEP that can be viewed [HERE](#).

#### **4.4.2 Conflicts of interest and codes of conduct**

All members of NECA Leadership Board and the North East LEP Board sign up to codes of conduct as set out in their respective constitutions. These codes are consistent with 'Nolan's Principles of Public Life' that state those members will act with selflessness, integrity, objectivity, accountability, openness, honesty and leadership at all times. The Code of Conduct is set out in Appendix 2 of the North East LEP Constitution and can be viewed [HERE](#) . All staff employed by NECA and working within the North East LEP Executive Team are required as part of their terms and conditions of employment to sign up to a code of conduct. This can be viewed on the LEP website [HERE](#) .

#### **4.4.3 Register of Interests**

Where members have personal interests these are required to be declared and registered as set out in the NECA constitution – Part 6 [HERE](#) or the North East LEP Constitution [HERE](#) . Each North East LEP Board Member and Chief Executive's Register of Interests are updated at least annually and can be viewed under their individual biographies [HERE](#) . In addition to Board members, co-opted Independent Advisors (non-voting members) that may be able influence funding decisions are also required to complete a register of interests.

#### **4.4.4 Conflict resolution**

Every effort will be made by the NECA Leadership Board and North East LEP Board Chairs and Chief Officer to informally resolve conflicts without recourse to the provisions set out in the North East LEP and 'Host authority and Accountable Body Agreement'. As a last resort the procedure set out in section 23 of the Accountable Body Agreement will be pursued. This can be viewed [HERE](#) .

### **4.5 Raising a concern and whistleblowing**

The North East LEP and NECA are committed to continuous improvement, the best use of public money and the absolute highest standards of probity. We know that things can always be done better and that sometimes, even with good intentions, sometimes mistakes do happen.

We welcome questions and concerns raised by anyone – staff, suppliers, grant recipients and the public. We have various policies under which matters will be investigated but each of them has common elements:

- 1) Matters raised will be acknowledged and logged. The substance is most important and if it has not been made under the appropriate procedure, it will not be lost, it will simply be addressed under the most appropriate procedure.
- 2) Chief officers will be made aware and may be personally engaged in investigation and resolution
- 3) We will seek to clarify and resolve enquiries at the lowest appropriate organisational level and if they cannot be resolved at the level there is a defined process for escalation
- 4) Appropriate measures will be put in place to respect the rights both the person raising the concern and staff involved to ensure all being treated fairly.
- 5) We will seek to respond within agreed timescales and keep the person who raised the issue appropriately informed.
- 6) Investigation will be conducted by person not connected with the matter
- 7) There will be a right to appeal or internal review of the outcome of any investigation.

The detailed relevant policies are:

For members of the public who wish to raise a concern - the North East LEP whistleblowing and raising a concern policy that can be viewed [HERE](#).

Concerns about the use of Public Money: Anti-Fraud Policy

Concerns about member or officer conduct: Member and Officer Protocols and Code of Conduct

Any other Complaints: formal complaint procedures through which service users may raise issues related to their experience of services received.

The NECA complaint procedure can be viewed within its constitution(Part6.5) on the NECA website [HERE](#)

The North East LEP complaints policy can viewed on the North East LEP website [HERE](#). All staff employed by the NECA, including those employed to service the North East LEP, are made aware of the whistle blowing policy which is set out in the NECA constitution. Support staff and secondees employed directly by Sunderland, Newcastle or North Tyneside Council also have the facility to raise issues under their own local authority whistle blowing policy and other related policies and procedures.

## **4.6 Promoting Diversity**

The North East LEP is committed to promoting equal opportunities (in accordance with the Equalities Act 2010) throughout the organisation. This related to everyone engaged with our

organisation – Board members, employees, suppliers, grant recipients and visitors. Our Equal Opportunities policy has been adopted by our highest decision-making board and compliance is monitored by these boards and the Organisations’ Chief Officers.

All organisational policies and every decision we make is assessed from an equality and diversity perspective.

We seek to ensure the overall make up the North East LEP Board reflects the diversity of our business population in terms of geography, business size and sectors and business leaders that reflect local gender and ethnicity characteristics. Where North East LEP Board vacancies arise, we seek to promote applications from any under- represented protected groups, business sector or geographic localities to help ensure we retain a diverse and representative balance and also meet LEP Government guidelines in terms of private sector representation and the proportion of women on the main Board. The Board meets the current MHCLG requirement that at least one third of members are women and is working towards equal representation by 2023.

All employees are made aware of the NTCA Equal Opportunity Policy and their responsibilities to comply with this policy and avoid discrimination of any groups or individuals with protected characteristics:

- age
- race (which includes colour and ethnic/national origin)
- disability
- religion or belief
- gender
- gender reassignment
- pregnancy or maternity
- sexual orientation
- marital or civil partner status

#### **4.7 Stakeholder engagement and communications**

A wide range of media channels are used to disseminate information on funding opportunities, funding decisions and progress on supported projects. Members of the public can find a range of information on our website on each funding scheme. For instance a summary quarterly project status update on the Growth Deal Strategic Growth and Infrastructure Fund can be viewed [HERE](#). Each approved project also has a dedicated project web page and regular new releases are issued reflecting milestone achievements by projects.

The SEP Refresh process during 2018 provided a major and extensive opportunity for all stakeholders and the wider public to be able to inform and influence the direction and priorities for investment decisions. The launch of the latest SEP on 14<sup>th</sup> February 2019 was attended by circa 350 local business and stakeholder representatives. Other major communication events are planned to include the launch of a promotional video to highlight progress with projects funded under Growth Deals and a second annual ‘Our Economy’ economic update event in May 2019. A range of stakeholder events are planned during 2019 ahead of the planned publication of the first North East Local Industrial Strategy in the autumn.

The North East LEP Advisory Boards provide conduits for stakeholders to be engaged and to offer their expertise on an ongoing basis in the development and delivery of investment programmes.

A Communications team maintains the North East LEP website [www.northeastlep.co.uk](http://www.northeastlep.co.uk) where we publish all key strategic and operational documents. Both Annual Delivery Plans and Annual Reviews are published on our website. The latest documents can be viewed [HERE](#). Members of the public can make enquiries via the North East LEP website and register to receive our regular 'Insight' e-bulletin. From 2019 our Annual General Meeting (AGM) will be open to the public. Stakeholder engagement is also maximised via social media, with regular updates and news posted. We have circa 10,000 twitter followers and issue a North East LEP e-newsletter to over 2,000 subscribers on a regular basis. The LEP Communication Manager provides regular updates with performance data on media coverage and the 'reach' of the LEPs marketing and promotion activities to the Board.

North East LEP brand guidelines, Growth Deal brand guidelines and media protocols are in place, to ensure standards in messaging and consistency are maintained. All funded projects are contractually obliged to adhere to branding requirements.

#### **4.8 Publication of Board Agenda's, papers and minutes.**

In accordance with the Local Government Act 1972, LEP Board and Investment Board agenda's and papers are published on the LEP website 5 days prior to the meeting and draft minutes are published within 10 working days after meetings are held. Finalised minutes are added to the website following approval at the next Board meeting. Where Board papers contain confidential or commercially sensitive information these are exempt from publication. Such papers are stored securely and are available if required, for auditing. The minutes of meetings record when a Board member, officer or advisor has declared an interest.

Where the LEP is aware that it holds "confidential information" under The Local Authorities (Executive Arrangements) (Meetings and Access to Information) (England) Regulations 2012 this information may be withheld from publication. This may be in circumstances where:

- Information provided by a government department on terms which forbid the disclosure of the information to the public;
- Where disclosure to the public is prohibited by a court or;
- Where the Local Enterprise Partnership holds "exempt information" under Schedule 12A of the Local Government Act 1972. This includes information relating to an individual, relating to the financial or business affairs of a particular person, negotiations, labour relations, legal professional privilege and in connection to the investigation or prosecution of a crime.

#### **4.9 Data Protection**

The North East LEP operates under the NECA data protection policies that are in line with the Data Protection Act 1998, The General Data Protection Regulations (GDPR) and the Data Protection Act 2018. We perform data controller functions in relation to Board member data and the projects

that we support through our funding programmes. In all funding contracts and other legal agreements with third parties we set out our respective obligations as either data controller or data receiver.

## **5. Ensuring Value for Money: Prioritisation, Appraisal, Business Case Development and Risk Management**

All funding programmes managed by the North East LEP have established processes and procedures that involve:

- Options appraisal and prioritisation
- Value for money and business case development
- Monitoring and evaluation (outputs and the management of risk)

A range of operational documents support the processes outlined in this section including a standard business case form, business case guidelines, Project Appraisal templates and Key Performance Indicator definitions.

### **5.1 Project identification, Options Appraisal and Prioritisation**

The process for project identification, selection and investment decisions in relation to current funding programmes are illustrated in Annex 1. They all have bespoke systems but share many common operational management principles, procedures and rigour to help ensure value for money.

#### **5.1.1 Growth Deal Local Growth Fund**

Initial Growth Deal programme projects were jointly selected by the Government and North East LEP. Subsequently, projects have come through a published 'call for projects'. Calls are published on the North East LEP website and are open for a limited period. Calls are ad hoc, bespoke and issued on a needs basis with accompanying guidance notes. Prospective projects are required to respond to the specific requirements set out in each call. In addition, 'restricted calls' may on occasions be issued to statutory bodies e.g. transport delivery bodies or FE training providers.

The two stage process is illustrated in Annex 1 and involves a competitive process at stage 1 with projects assessed against published criteria. Projects selected by the Board progress to Business Case stage and are then assessed in a proportionate manner in line with the Treasury Green book guidelines.

#### **5.1.2 North East Investment Fund**

Project entry into the NEIF is open to eligible projects, at all times, subject to available funds. Each project is considered on its merit against the published criteria. Project selection criteria are standard and reviewed annually. A two stage process is followed as shown in Annex 1.

EZ infrastructure projects also follow this two stage process and are assessed against separate criteria including an assessment of future business rate receipt income.

#### **5.1.3 Arrangements for Transport Projects**

The North East LEP seeks strategic direction on the identification of major transport projects for inclusion in bids to Government from the NECA North East Leadership Board in recognition of its strategic transport function supported by a specialist Transport Executive Team.

The NECA Regional Transport Team use a 'restricted call' procedure to specifically invite transport promoting bodies i.e. local authorities and Nexus to prepare project 'expressions of interests'.

Once projects are selected into the North East LEP Growth Deal Programme these are subsequently subject to appraisal and determination under a separate 'Transport Assurance Framework' which follows the same principles and can be viewed [HERE](#). The framework details how processes are in accordance with specific Department for Transport WebTAG guidelines and national transport assurance guideline requirements and is used by the NECA Transport Team to support the appraisal of North East LEP funded transport projects.

Scheme promoters will be required to use the Transport Scheme Development Process Note and Stage Templates, which is appended to the Transport Assurance Framework, when developing their business case and Value for Money (VfM) statement. The business cases and VfM statements are independently reviewed. The NECA Section 73 Finance Officer will sign off VfM statements following the advice of the specialist NECA Regional Transport Team; unless this presents a conflict of interest concern, where another senior officer from NECA or a Section 151 officer from a constituent authority will sign-off the VfM statement.

Project EOIs are initially assessed in regard to short –medium –long term delivery at 'Gateway 1: Conditional Programme Entry', and project prioritisation is undertaken in relation to the specific objectives of each transport funding pot - each having bespoke scoring criteria – and programme-entry status given to prioritised projects.

For large schemes requiring at least £1.5m central investment, Gateway 2 (interim independent assurance at outline business case) and 3 (full approval to proceed at full business case) apply and projects are assessed in accordance with the DfT WebTAG minimum appraisal requirements. For smaller scale transport projects, a proportionate WebTAG principled-approach is taken and projects may proceed from Gateway 1 to Gateway 3 e.g. for smaller scale schemes within the 'Local Sustainable Transport Fund capital programme'.

## **5.2 Value for Money and Business Case development**

Appraisal criteria are based on the Treasury's Green Book, and specifically for transport projects, the DfT's WebTAG. In 'open calls' for projects the objectives of the call tend to be fixed. Where 'closed calls' are used, objectives tend to be bespoke to the project call but will be largely based upon agreed economic priorities in the SEP. Appraisal criteria will be published along with application forms and guidelines.

Projects in all programmes are subject to the following assessment:

- Fit with the Strategic Economic Plan
- Appraisal at each stage development processes - drawing on independent specialists e.g. economic, legal, property or sector expertise.

- Additionally – the need for public funding at the level requested. Appraisal will aim to quantify the additional public value that is created from an intervention taking into account displacement and deadweight.
- Options appraisal – showing why the proposed project represents the optimum solution.
- Risks to delivery and show how risks are effectively managed.
- Value for Money - in particular the WebTAG ‘high value for money’ benchmark. (For transport projects employment benefits are a strategic consideration and are not valued in the economic case in the BCR and NPPV calculation).

When assessing VfM the North East LEP follows the HM Treasury Green Book business case guidance and ensure there is a clear audit trail of decisions.

For each fund the North East LEP will assess the Benefit to Cost Ratio (BCR) and Net Present Public Value (NPPV) presented in each business case to produce an overall assessment of value for money based on these metrics and non-monetised impacts and will include this assessment in reporting to the Board. In principle, the North East LEP will fund schemes that have a positive NPPV and normally a minimum BCR of 1:1 subject to other assessment criteria (e.g. affordability, deliverability).

Where assumptions have been made, these will be set out and sufficient sensitivity testing carried out on these assumptions to understand the robustness of the economic assessment.

The value for money aspects of the project business cases reported to the North East LEP Board and NECA Leadership Board for approval are subject to sign off and given assurance by the Section 73 Chief Finance Officer of NECA, with support from the NECA Finance team.

The BCRs for all approved projects are published on the on the LEP website [HERE](#). Business cases for transport projects can be accessed via a summary project listing [HERE](#).

### 5.3 Monitoring and Evaluation

The North East LEP has developed a monitoring and evaluation strategy and action plan that aims to:

- Meet the requirements of funders.
- Inform the on-going decision making by Board.
- Help secure future funds/responsibilities by enabling the LEP to demonstrate impact, effectiveness and value-for-money.

This plan follows the Treasury Magenta Book guidance and any supporting MHCLG guidance that is issued and will be based on:

- Monitoring of spend, milestones and outputs to check progress against targets

- Evaluation of effectiveness and efficiency of processes and outcomes and impacts of investment decisions against fund objectives.

All projects are currently monitored to ensure they adhere to their grant funding conditions. Core grant conditions require projects to report on any significant variations to costs or use of contingency budgets (where approved) above certain thresholds.

All approved projects provide monitoring information on a regular basis. Each project submits a Quarterly Monitoring Return setting out actual figures against those profiled in their approved business case in terms of funding, costs, performance outcomes, managed risks and where applicable the achievement of any project specific conditions. All projects have a contact in the Programme Team and are encouraged to bring forward and discuss any significant emerging changes to approved schemes that require a project be re-appraised and consented.

Any significant variations to a project e.g. slippage in programme milestones, changes to matched funding, revised scope including reduced scale or expansion will be reported to the Technical Officer Group in the first instance. Where changes are considered significant and with potential adverse impacts on VfM a revised business case will be required, and recommendations taken to the North East LEP Board or NECA Leadership Board as appropriate.

Where a contracted project is underperforming and is forecast to fall short of contracted performance outcomes the North East LEP Board will be provided with a report with appropriate options including de-commitment and contract termination.

All projects will receive verification and performance progress visits during their lifetime.

Each project is expected to submit an evaluation plan and a final evaluation report. Programme level evaluation plans set out how we will assess the impact of investments over the period to 2024 in meeting the SEP objectives. This covers all capital investment programmes and also other activities with partners. Within this context, a narrower evaluation plan will look more specifically at impact of the Growth Deal LGF and NEIF investments. The SEP set a goal of supporting the creation of 100,000 new private sector jobs over the period to 2024 of which the Growth Deal programmes currently forecasts a contribution of over 15,000 jobs.

Through undertaking a comprehensive evaluation approach, we seek to assess and understand the contribution of project interventions to outcomes and consider any overlapping contributions to outcomes. An independent process evaluation study, finalised in February 2019, will be followed by an interim impact report in 2021 and a final impact evaluation report in 2024/25.

Baseline information, core metrics and monitoring systems are in place to capture qualitative and quantitative aspects of project investments and are kept under review by the TOG.

Where required funding programme financial and performance information is provided on a regular basis to Government using reporting templates provided by Government that are verified and signed off by the Section 73 Finance officer.

## 6 Financial accountability and management controls

### 6.1 Accountable Body functions

NECA holds all current North East LEP funds. It performs the following duties, with support from its Finance team, including staff based at Sunderland City Council and Legal Team at North Tyneside Council across all funding programmes:

- Ensures all financial regulations are adhered to through its Section 73 Finance Officer, including those relating to procurement, tendering, arrangements for contracts and processes. Payments made are subject to controls including segregation of duties and independent verification of bank account details of payees. Financial regulations of NECA can be found as part of the NECA constitution.
- Assesses lawfulness prior to endorsing all decisions for project funding contracts to be issued and any payments made.
- Provides timely statements of expenditure to Government as required under Section 31 Grant Agreements with Government.
- Ensures decisions made are consistent with any national or European Environmental, Equalities, Procurement or State Aid regulations and are otherwise lawful.
- Maintains separate accounts for each funding programme
- Provides expenditure monitoring reports
- Makes arrangements for the annual independent Audit of expenditure on all North East LEP and NECA programmes.
- Maintains a register of NECA and North East LEP Board member personal interests.
- Manages NECA and North East LEP funds in line with the Treasury Management and Investment Policy

Quality Assurance is undertaken by the Internal Auditor at NECA. This includes an inspection of programme and project records to ensure that proper procedures have been followed in the section and award of funding and on-going compliance with funding contracts.

When exercising their public functions, the NECA will take into consideration s.149 of the Equality Act 2010 and consider the impact upon people/groups with protected characteristics and specifically will consider how the project has had regard to

- 1) the need to eliminate unlawful discrimination, harassment, victimisation and other conduct prohibited by the Act;
- 2) the need to advance equality of opportunity between people who share a protected characteristic and people who don't; and,

- 3) the need to foster good relations between people who share a protected characteristic and people who do not.

During the application, project sponsors will be assessed in relation to equalities issues and grant funding agreements stipulate that recipients must comply at all times with the Equality Act 2010.

## **6.2 Programme Management Capability**

An experienced Programme Management Team is in place North East LEP to oversee the development, delivery and effective day to day management of all investment programmes and resources. The team procures specialist appraisal support where necessary to support project appraisals. This may include:

- Legal advice
- Property market appraisals
- Technical or thematic specialists

Transport Officers from NECA Regional Transport Team who monitor and support the transport scheme promoters in the 7 local authorities and Nexus are co-located within the North East LEP as required to bring efficiency to the process. This arrangement enables close working relationships, sharing of experience and knowledge management.

The Programme Team manages all aspects of the North East LEPs investment portfolio supported by NECA Finance Team, Legal Team at North Tyneside Council and the Corporate Finance Team at Sunderland City Council.

Functions include:

- Strategic programme management and co-ordination of governance
- Programme/Project Development
- Project Assessment/Appraisal/Due Diligence
- Procurement and contracting
- Monitoring and evaluation

## **6.3 Programme management tools and systems**

The Programme Team has developed an Excel based corporate programme management database to record, monitor and performance manage projects across all funding programmes. This is used to interrogate performance and generate update reports to the Technical Officer Group and Investment Board. NECA Transport Team has established systems using Project Vision software for project and programme management for all LEP LGF funded transport projects.

## 6.4 Risk Management

The NECA Section 73 Finance Officer is accountable for risk management.

All programmes have in place a Risk Register that is subject to monitoring with risk owners clearly identified. Risks are managed at project and programme level and escalated if required by the TSG or Investment Panel to the Board.

Risk status reports associated with the performance of all funding schemes are reported to the North East LEP Board on a regular basis. Where required mitigating actions are highlighted to address issues.

## 6.5 Funding Agreements

All Funding Agreements are entered into on behalf of the North East LEP by the NECA Monitoring Officer following appropriate North East LEP Board and NECA Leadership Board approvals and consultation with the Section 73 Officer and Head of Paid Service. Standard Funding Agreements include obligations requiring funding recipients to comply with financial, other statutory regulations and to adhere to performance reporting requirements. Provision is made to be able to cease and / or clawback resources where a project is under performing or otherwise in breach of its funding agreement.

## 6.6 State Aid considerations

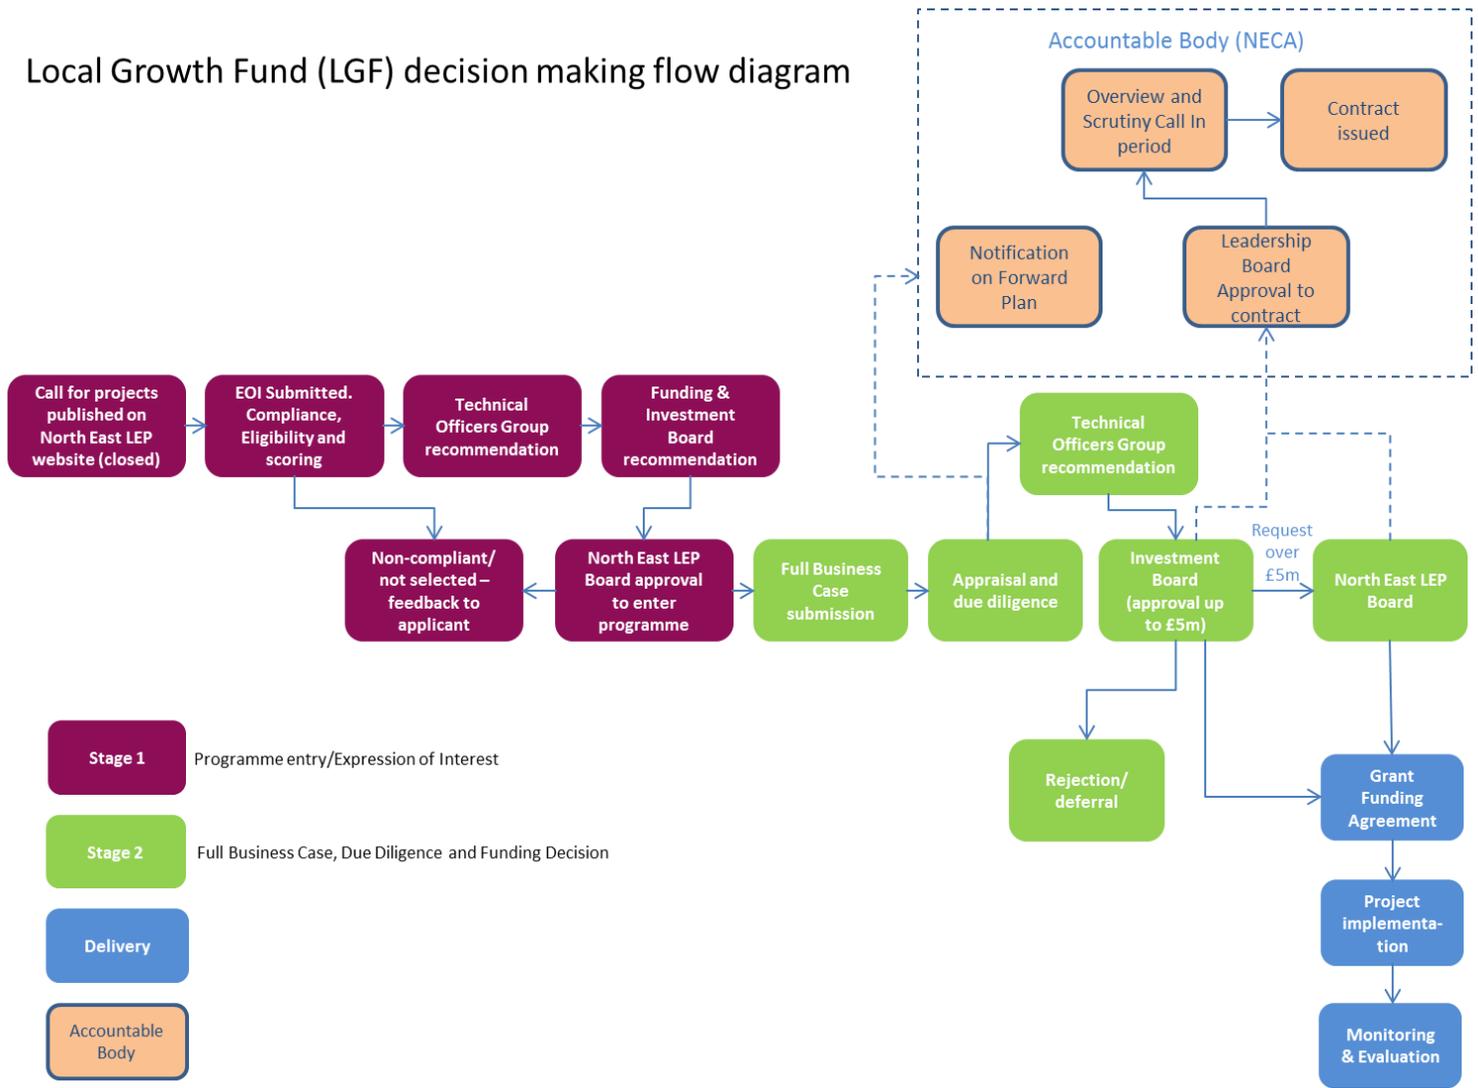

All projects, in all programmes, are assessed in relation to whether or not the requested level and form of financial support would constitute State aid. Questions in relation to State aid are initially asked at the EOI stage. Where there is potential for State aid to be present, appropriate compliant state aid routes are required to be identified by the funding applicant and this is required to be supported at business case stage with expert legal opinion.

State aid appraisal at business case stage is undertaken by the NECA Monitoring Officer. Advice is provided to the North East LEP Programme Team on the state aid assessment submitted by projects. Where appropriate and in complex and high-risk cases, external legal advice is obtained by the NECA and North East LEP.

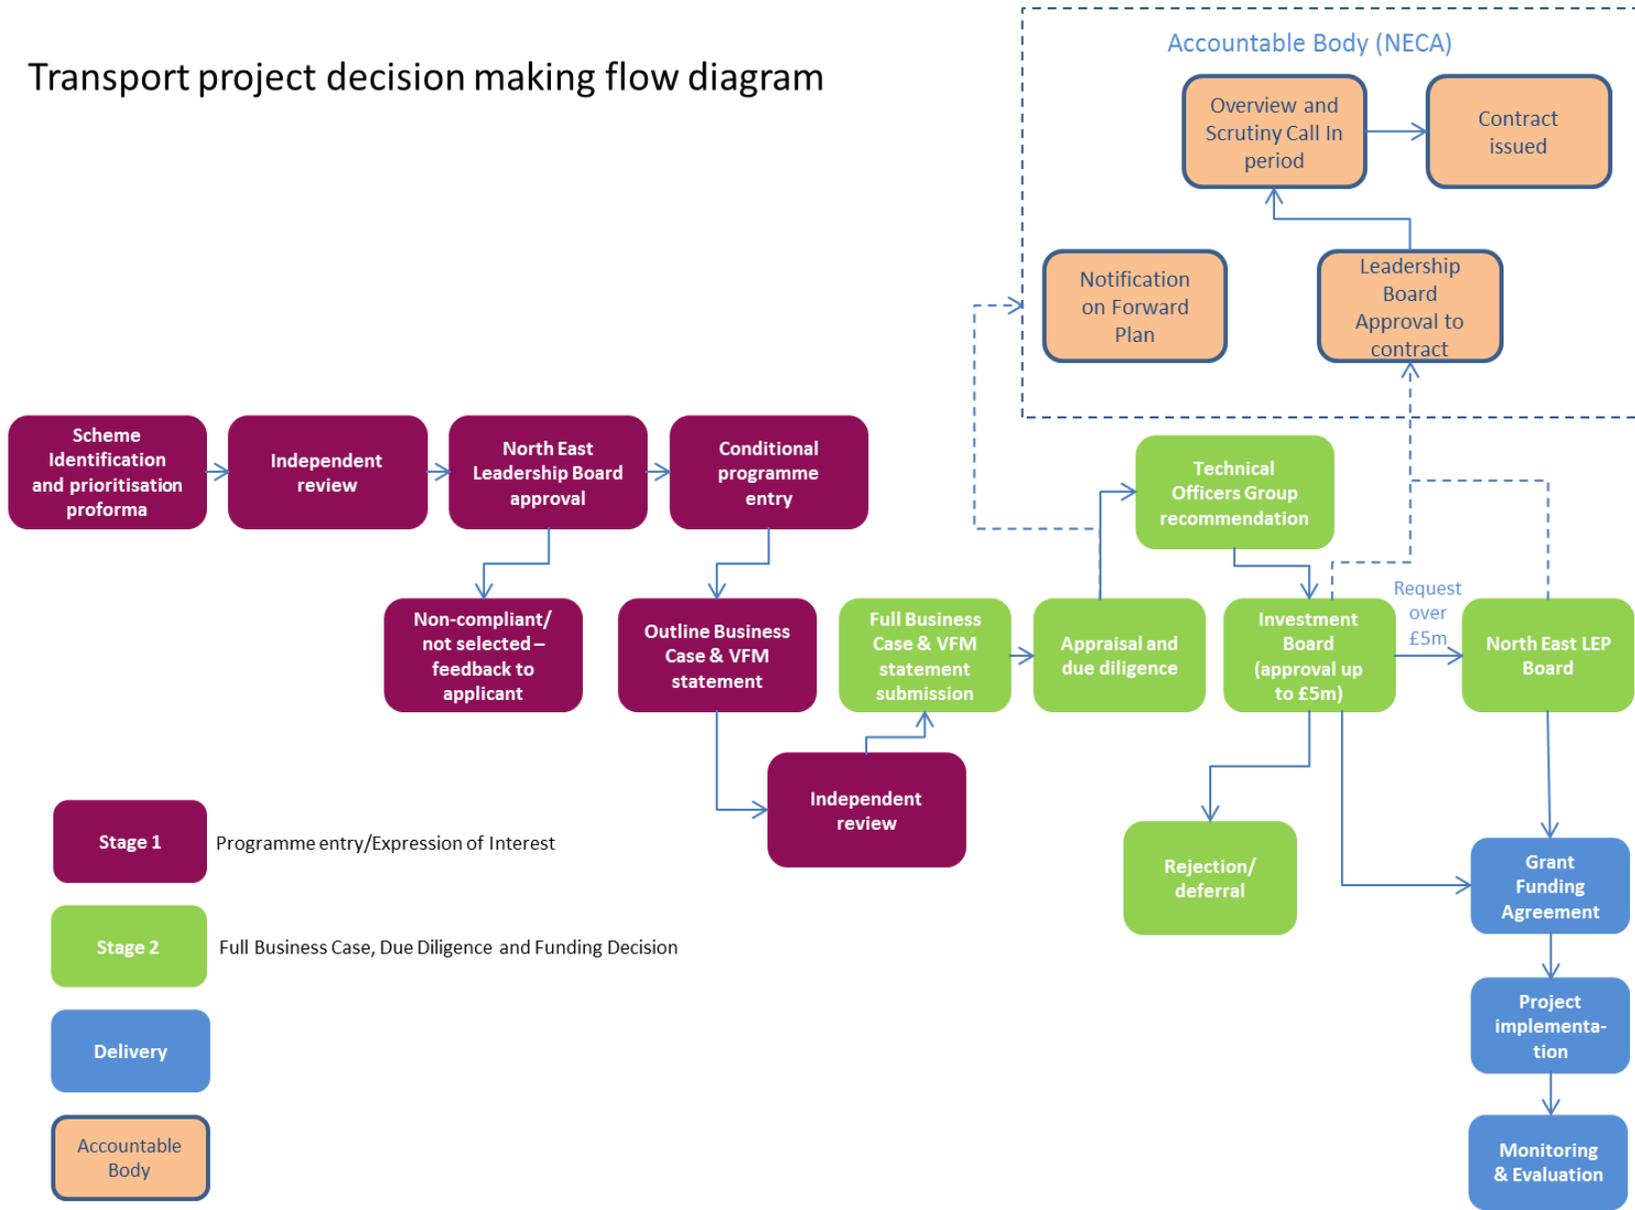

Where financial support is awarded as a form of permissible State aid this will normally be under the SANI 2 registered scheme 'North East Growth and Infrastructure Fund'. Further information on the scheme can be viewed [HERE](#). Details of all awards of State Aid are published on the North East LEP website and can be viewed [HERE](#). In addition, and in accordance with EU Article 9 (6) of the General Block Exemption Regulations (GBER), from 1<sup>st</sup> July 2016 we shall supply information to HM Government for national publication on all projects receiving over €500,000 to comply with GBER provisions in relation to the transparency of awards.
